## PREMIERS SIGN INDEMNITY AGREEMENT

### HARPER CONFESSES AND 4 REMANDED TO JAIL BY JUDGE KYLE

(Special to The Daily)  
ATHENS, Ala., Jan. 29.—Wilbur Harper, Adz Jones, George Porter and Fortune Allen, the latter a negro, were remanded to jail without bond by Judge O. Kyle here late yesterday, following a hearing in the Circuit court on a writ of habeas corpus for Jones and Porter. The hearing was featured by a confession of Harper, implicating all four of the defendants in the slaying of John King, who was shot to death in his home near Tanner last December.

Fortune Allen also made a statement in open court, charging that Harper was responsible for the killing and declaring that Jones and Porter had nothing to do with the murder. Mr. and Mrs. Dorrity, neighbors of the King family, testified to seeing three men in the vicinity of the King home.

**Harper Confesses**  
The courthouse was crowded Friday when Judge Kyle called the cases, approximately 1,000 people being in attendance. Jones and Porter have retained James Rankin and W. R. Walker two of the best known attorneys in North Alabama as their legal representatives and a hard legal battle is expected when the cases are called before a jury on the fourth Monday in March, the date set by Judge Kyle late yesterday, following his decision on the writ of habeas corpus.

Under oath on the witness stand, Harper testified that he had been running a still and had others selling whiskey for him. He testified that on Friday night, December 17, Fortune Allen came to his home near the Tennessee river and said Jones and Porter wanted him (Harper) to come to Jones' residence.

Harper swore he went there and that all four of the men were armed with guns. About 8 o'clock, he said, they went to the home of John King and shot him to death through a window of the house.

**Dying Statement**  
According to Solicitor D. C. Almon the state has a heretofore unrevealed dying statement of John King identifying one of the men who is alleged to have slain him.

King was killed while he sat in a room with his wife and several children. He had just arisen to disrobe and retire, it was said, when a number of shots rang out and he fell to the floor, mortally wounded.

King had lent aid to the officers in the breaking up of illicit distilling in Limestone county, officers stated.

The state was represented yesterday by Solicitor Almon and County Solicitor Fred Wall.

### ODD FELLOWS TO ENJOY MEETING

Odd Fellows of Albany lodge No. 159 and their families will enjoy a social meeting, in accordance with custom of many years, Monday night it was announced today by the committee on arrangements. The committee is composed of: J. F. Lovin, F. S. Mann, H. C. McCord.

### Resolution Aids American Trade

(International News Service)  
ATLANTA, Jan. 29.—The passage of a resolution that "where by no goods we are making or can make in the United States shall be imported into the United States for the next ten years," as recommended by the committee on resolutions by the Southern tariff congress, was one of the main subjects before the session this morning.

The address of Congressman James W. Good and a speech by former Governor Sidney J. Catts, of Florida, will be features this afternoon.

### ROAD ASSOCIATION ASKS RATIFICATION OF AMENDMENT TO PERMIT BOND SALE

Whirlwind Campaign Started to Acquaint Voters With the Law's Provisions

F. J. CRAMPTON URGES PEOPLE TO VOTE 'YES'

Ratification Will Enable Highway Commission to Dispose of Bonds

(Montgomery Bureau Albany-Decatur Daily)

MONTGOMERY, Jan. 29.—The Alabama Highway Improvement Association has started a whirlwind campaign of the state to acquaint the voters with the purpose and need of the ratification of the amendment which will be voted on February 8 and which will give the state highway commission authority to sell highway improvement bonds to the value of five million dollars at a rate of interest not greater than six per cent.

All efforts of the commission to dispose of bonds at five per cent, the maximum now permitted by the amendment adopted February 16, 1920, have failed because the price of money is greater than the maximum permitted. Several bonding companies are interested in the purchase of bonds but are not willing to purchase them at the low rate of interest. If the commission can guarantee as much as six per cent it is probable a sale can be consummated without delay.

Road projects throughout the state have been made and surveys completed. No money is available and none will be available for the construction work until the bonds are sold.

F. J. Crampton, president of the highway improvement association, is interested particularly in dispelling one thought which has entered the minds of many voters—that the increase in the interest rate will mean an increase in taxes. "Alabama will not increase taxes one penny by the increase in interest rate," said President Crampton today. "When the original amendment was submitted to the voters last year we told people here would be no interest money paid from taxes or from any other general fund of the state. Every penny in interest will come from the automobile license fund, which has already been set apart by law for the particular purposes of paying interest and creating a fund with which to take up the highway improvement bonds as they become due."

George Tapp, of Lauderdale county, who took a beef steak valued at fifty cents from a negro and got ten years in prison for it because the offense happened to be committed on a public highway was ordered released from prison by Governor Kilby Friday afternoon. Tapp was convicted in 1917 and has served since that time. Governor Kilby said he believed the offense had been corrected by Tapp's service and in this he was supported by the trial judge, who said the sentence was far too severe for the crime.

Other convicts ordered released by the governor on the recommendation of the state board of pardons and clemency follow: Jim Simmons, Escambia, murder, life, convicted in 1906; Carrie Parker, Elmore, assault to murder, twenty years, convicted in 1910; Will Britton, Jefferson, assault to murder, ten years, convicted in 1912.

Governor Kilby has not yet received any evidence which would cause him to interfere with the death sentence of Dan Charley, Mobile negro, who was granted a respite of fourteen days from last Friday, according to information at the executive department today. An investigation of additional evidence supposed to have been obtained has not developed facts which would give a reason for interference and it is not probable that the governor will interfere with the execution. Charley's partner in the murder of Sam Block, Mobile merchant, was (Continued on Page 4)

### JAPANESE NOTE ON DEATH OF LANGDON NOT YET RECEIVED

(International News Service)

WASHINGTON, Jan. 29.—The new Japanese note relative to the killing of Lieutenant Langdon, U. S. N., by a Japanese sentry at Vladivostok which is reported to have been dispatched from Tokyo, has not been received here according to state department officials. Officials of the state department said but one brief note had been received from Japan on the Langdon affair and that was merely an acknowledgment of the receipt of the American protest.

The state department announced this note could not be made public as the matter is still the subject of negotiations.

### LITTLE TIME YET TO PAY POLL TAX IN ORDER TO VOTE

Officials today sounded their final warning that the time grows short in which poll taxes may be paid, permitting citizens to cast their ballots during the calendar year, 1921. Payments in Morgan County this year have not been as prompt as was expected.

Tax Collector Charles C. Robertson announced today that he would be at the office of the Central National bank tonight for receipt of tax payments, while The Hartselle Enquirer announces persons residing in the Hartselle community may pay their tax at the Enquirer office.

Unless polls are paid by February 1, Tuesday, persons failing to pay the tax are disqualified, irrespective of whether or not they have registered.

Under the Alabama election laws as they now stand, women are required to pay the poll tax if they vote this year.

### Thugs Rob Bank, Getting \$14,000

SOMERVILLE, Jan. 29.—Special—A pretty romance that began during the late war, while A. D. Sample was on one of the American submarines on which he visited Scotland and there met Miss Nell McKendrie, an accomplished young woman, came to close on Jan. 25, 1921, when Mr. Sample and Miss McKendrie met by appointment in Nashville, Tenn., where they were united in marriage.

Mr. Sample is one of the county's most competent and worthy young men. Mrs. Sample has been in the United States since last May visiting her sister at Howell, Mich.

### MASONS TO HAVE EXTENDED MEETING

REFRESHMENTS WILL BE SERVED BY LADIES AT 6 O'CLOCK

Albany Lodge, No. 491 will have a called meeting Monday when work will begin at 2:30 o'clock in the afternoon and after refreshments, served by the ladies of the Eastern Star at 6 o'clock, lectures will be delivered by several able speakers, it was announced today by A. Q. McDonald, W. M.

A large attendance is expected from the Rising Sun Austinville, Trinity and Hartselle lodges. All master masons were extended a cordial invitation to attend.

### Curtailment Step Is Taken by Army

(International News Service)

WASHINGTON, Jan. 29.—Drastic curtailment of expenditures to meet a probable deficit of \$94,000,000 for the present fiscal year was ordered today by Secretary of War Baker. The civilian personnel of the quartermaster corps was ordered reduced so that it will not be 60% of the personnel employed during December.

Substitutions of articles of subsistence and curtailment of cable and telegraph tolls also was ordered.

### Jasper Awaiting Opening of Trial

(International News Service)

JASPER, Ala., Jan. 29.—Following adjournment yesterday of the special grand jury, called to investigate the lynching of William Baird, Jasper today is awaiting the opening of the trial of the members of the Alabama National Guard, charged with the crime, at Hamilton on Monday.

The jury's investigation extended two weeks and resulted in nine indictments.

The jury is subject to call by the solicitor and it is not improbable that the investigators will again take up the case.

### DENIAL ISSUED OF OFFICIAL SANCTION OF BERGDOLL MOVE

(International News Service)

WASHINGTON, Jan. 29.—The Department of Justice today issued a formal denial of reports that agents of the department were involved in the attempt to kidnap Grover Cleveland Bergdoll in Germany. The department stated it has agents in Europe but they were not concerned in the Bergdoll episode.

The state department has requested an official report on the attempt to kidnap Grover Cleveland Bergdoll in Germany, it was announced today. It is understood a request for information has been made on American Commissioner Ellis Dressel at Berlin and upon General Allen, in command of the American Army of Occupation. Officials refuse to say what course they would follow when in possession of the facts.

American Commissioner Dressel has reported the German government has made no representation with regard to the Bergdoll incident, although it has been the subject of inquiry.

### California Will Fight Jap Treaty

(International News Service)

WASHINGTON, Jan. 29.—California will use every legitimate and legal means to resist any treaty between the United States and Japan which would interfere with the California form land laws Senator Hiram Johnson declared today in a statement issued by him.

The state department will make a public statement with regard to the proposal for the settlement of the Japanese problem, Secretary of State Colby announced this afternoon, following the issuance of the statement by Senator Johnson.

### Young Husband Shoots His Wife

(International News Service)

MONTGOMERY, Jan. 29.—R. J. Kirkpatrick, who resided at 118 Church street, shot and instantly killed his wife as they lay in bed about 7 o'clock this morning and then shot and fatally wounded himself.

He died about an hour later. The Kirkpatricks were about 21 years old each and had been married about three months. No cause for the deed is known.

### Suicides Common in Foreign Capital

(By International News Service)

LONDON, Jan. 29.—An epidemic of suicides is prevailing in Hungary as a result of the fuel and food famine and the self-inflicted deaths in Budapest average 15 a day, according to a Central News dispatch from that city today.

### THREATENED SPLIT BETWEEN ENGLAND AND FRANCE ENDED BY PEACE CLAUSES

Officials Sign New Agreement to Force Germans to Pay War Cost

ALLIES AGAIN UNITED ON PROPER METHOD

Germany Is Given 42 Years in Which to Complete the Settlement

(International News Service)

PARIS, Jan. 29.—The indemnity agreement, by which Germany must pay the allies between \$50,000,000,000 and \$60,000,000,000 in the next forty-two years, which was drawn up by a special agreement last night, was signed by the premiers this afternoon.

France and Great Britain were thus brought together on the reparation question which had threatened to split them. The German disarmament agreement was signed also.

This provides that Germany must disarm in accordance with the Spa protocol by the end of June. It sanctioned prolonged occupation of the Ruhr district to enforce the allied demands.

According to the agreement, Germany must pay from 2,000,000,000 to 6,000,000,000 gold marks annually and a tax of 12 1/2% upon her export trade annually for 42 years. The allies' statement discussed the reparation agreement all morning.

It was decided to send copies to Germany immediately so that the Germans could study it in advance of the Brussels conference, which will resume on February 7 for discussion of financial and economic matters.

The Germans will be invited to meet the allies in a joint discussion in London on February 28, instead of Geneva, the place originally suggested.

Berlin will be notified of the conditions and penalties of the disarmament agreement in a formal manner when the Allied-German conference meets in London.

It was expected that adjournment would be taken after this night session.

### INJECT ETHER INTO VEINS OF PATIENT

BOSTON, Jan. 29.—Either administered through a vein in the elbow to induce anaesthesia for a major operation was successfully applied for the first time, it is believed, in Boston, in a surgical case at the Elm Hill Hospital on Walnut street, Roxbury, held, went under the knife for cancer of the brain.

Dr. R. E. T. Rhames was in charge of the operation, with Dr. Nicholas Dynan and Dr. Richard J. Costello as assistants.

In the case of the Roxbury patient, the anaesthetic could not be administered in the usual way, by inhalation, because of a nasal obstruction.

A 5 per cent portion of ether in a salt solution was introduced into a vein at the elbow by means of a gold needle connected with a tube, which in turn connected with a reservoir for the fluid. Sleep having been induced within ten minutes, the cerebro-spinal fluid was then removed from the patient's system to allow the operation. In due time the patient recovered consciousness.

The intravenous method, so-called, of producing anaesthesia, has been in successful operation for some time in Paris and a number of American cities.

## INFORMATION EVERY BUSINESS MAN SHOULD PONDER WELL

Reports from the United States Treasury, the census bureau, the War Department, and Bradstreet's for the year 1920, among other interesting information, set forth in a striking way the value of printer's ink as a salesman and as a "recruiting officer."

Says the War Department that when the government attempted to conduct a recruiting campaign by the means of paid advertisements in the newspapers, it thereby reduced the cost of recruiting 70 per cent. On top of this comes the significant statement from Bradstreet's that out of all the business failures made in 1920, 84 per cent were made by firms that did not advertise. From these two statements it appears that newspaper advertisement was a cheap and efficient way of telling the people that goods were for sale and that recruits were needed for the United States army. Loads of goods were removed from shelves that but for the salesmanship of printer's ink would have remained unsold.

Another thing stressed by writers on salesmanship is that with the passing of every year business sales are reduced nearer and nearer to an exact science. The Audit Bureau of Circulations and the Newspaper Association and other like organizations have contributed largely to this end. These organizations have also done a great work in removing crooks and fakirs from the business world. There may be now and then "fly-by-nights" in the business of advertising, but more and more goods are what they are represented to be and are sold according to the advertised price.

Such considerations as these have strengthened the confidence of the buying public until many busy people depend almost entirely upon printer's ink to locate what they wish to buy. Well-established publications are not expected now to advertise any article that does not contain genuine value. While on the other hand the business people are becoming more careful all the while to raise their standards of salesmanship through paid advertisements.

Neither the seller of goods nor his advertiser can afford to deal otherwise than in good faith and with the greatest care when putting goods before the public. If for no other reason, pure business demands honesty as the best policy. The general public has learned that it can rely upon printed statements as to the exact price of articles, and as to whether they are sold on a rising or a falling market. It is pointed out by reliable writers that American business men lead the world in the matter of illuminating and truthful advertising. While sellers, of course, mention the best points as to the price and qualities of their goods, it is very unusual that lies are told about them, either by word of mouth or in print. Publicity is not only becoming more general, but it is becoming more reliable. When the organizations referred to above make

their reports next year, again those concerns that use the salesmanship of printer's ink liberally may safely be counted on to be listed in the prosperous column.

## MUSCLE SHOALS PROJECT GAINS FAVOR IN SENATE

While many obstacles yet lie in the way of securing the necessary appropriations for continuing the great government development work at Muscle Shoals, and for operating the nitrate plants there, encouraging progress was made Wednesday when the Senate appropriations committee voted to accept the Underwood amendment to the Sundry Civil appropriation bill, setting aside \$10,000,000 for the completion of the government works.

It is believed by friends of the Muscle Shoals project that the Senate will act favorably for it, but there probably will be a fight against the appropriation in the Senate, and in the House unquestionably a strong fight will be made against it. The action of the Senate committee and the favorable attitude of the Senate, however, will go far toward winning friends for Muscle Shoals in the House.

The farmers of America are squarely behind the movement for continuing the work at Muscle Shoals, where already nearly one hundred million dollars have been spent to make this country independent of foreign nations in the matter of nitrates, and to give cheap fertilizer to the farmer and abundant power for industrial purposes in the most rapidly developing section of the country.

The Wilson dam, one of the great works of all time, is needed to supply power to the great nitrate plants, which in turn are needed both in peace time and in war time. The power generated at the dam will be much more than will be needed by the government, and the surplus power will be available for industrial and commercial purposes in Alabama and Tennessee.

The Muscle Shoals project is of vital importance to the South, and the fate of the great work at the hands of Congress is awaited with intense interest by Southern people generally. At the same time it is a national project, which will benefit the farmers of the North, East and West to a greater extent than it will the farmers of the South, for they need fertilizer on their lands more than we do, so that really the whole matter is one in which the people of the country generally are deeply interested. Congress should make provision for completing and operating the project, for it is in behalf of the whole people.—Anniston Star.

If Mr. Schwab had been going to take any money, do you suppose he would have stopped at a paltry \$100,000? His weeping was doubtless at the thought that he could be thought little enough of to take less than a million.

The only trouble about the weather is having to explain why we are having such a mild winter, and being forced by inquiring neighbors to count back and see if there ever was such a pleasant winter before.

## Arson 'King' Gets a Long Sentence

(International News Service)  
UNIONTOWN, Pa., Jan. 29.—Albert Smith, aged 19, son of a wealthy real estate dealer at Fairhope, this county, was today sentenced to from 42 to 85 years in the penitentiary. Young Smith pleaded guilty to 18 charges of arson. These blazes were a part of more than 80 fires during a great wave of incendiarism in this and adjoining counties.

## EATS POUNDS OF GARLIC, TWO STEAKS AT DINNER PARTY

(International News Service)  
DETROIT, Mich., Jan. 29.—Peter Caruso (no relation of the great Enrico) is still the champion eater of Detroit. He defended his title at a dinner given last night in his home, at No. 387 Labelle avenue, Highland Park, when garlic was the piece de resistance.

Peter consumed eight pounds of this fragrant vegetable. Along with this he ate half a loaf of Italian bread and two pounds of steak. This was washed down with a quart of Italian wine.

Peter was none the worse after this gastronomic feat, and at the party following the dinner was one of the jolliest persons present. Peter's joy was increased by the fact that in making way with the meal, he won \$20 from Deputy Sheriff Charles Sansone, who bet that Peter would fail in his attempt.

A year ago at a contest, which Peter won easily, he ate six pounds of macaroni.

## BOLIVIA SOURCE OF COCAINE

South American Country Produces Supply of Anesthetic That Fills Recognized Place in World.

The most profitable agricultural product of Bolivia is the coca plant, from which the anesthetic cocaine is derived. The world depends mainly for its supplies of coca leaves upon that South American country.

The Bolivian natives commonly chew it for its narcotic effect. It enables the Indian burden bearer to go without food for a long time, and to work long stretches without rest. Unfortunately, its continued use is injurious to the nervous system, and is supposed to have much to do with the degeneration of the native race of the Bolivian plateau.

The coca plant is a shrub three or four feet high. Its leaves are of an oval shape and light green. The shrub is grown on terraces built on the hillsides. These terraces are about ten inches wide and are protected by ramparts of earth faced with stones or cement. The terracing prevents the heavy rains from washing the whole plantation down the mountain side, and also holds the moisture about the roots of the plant.

Young shoots are grown under a cover of dried banana leaves, and when sufficiently advanced are transplanted to the terraces. The plants begin bearing when two years old. After the leaves are picked they are dried in the sun on a floor made of slabs of slate. They are then pressed into bales weighing fifty pounds each, and wrapped in banana leaves and burlap to protect them against weather and rough handling, and carried to La Paz by mules. In La Paz they are at present worth 47 cents gold per pound.

Bolivia manufactures no cocaine. The leaves are exported to other countries for the extraction of that active principle.

## RAILROAD CARS ARE NEEDED IN EUROPE

(International News Service)

PARIS, Jan. 29.—Disorganization of transportation through lack of railway rolling stock—locomotives and freight cars—has much to do with the present chaotic economic conditions in the countries of Central and Eastern Europe. The foregoing statement is based on reports received at the Paris headquarters of the American Red Cross from its workers in Poland, Finland, Estonia, Jugo-Slavia, Czechoslovakia and Rumania may be called as examples. The former country has a large sugar surplus for exportation, yet insufficient cars and locomotives to transport it while after a wonderful harvest Rumania has more than enough grain for herself, and the wealth of her oil wells is well known, yet through lack of railway equipment she is unable to give to the world those two much-needed commodities.

From Berlin to Bucharest and from Vienna to Vilna Red Cross conveyors of supply trains report side tracks and yards littered with a collection of broken-down locomotives and cars, in some cases American engines and cars left here by the A. F. F. are found sandwiched in with their European brethren, having been pushed to the limit during the past two years with apparently little effort made at repairs. The root of this condition is the German policy of crippling the economic life of enemy countries. Locomotives, cars and the tools from repair shops were taken by the retreating Germans and are still held by them. Only the worst was left, and for the past two years that has been worked to capacity with little attention paid to overhauling.

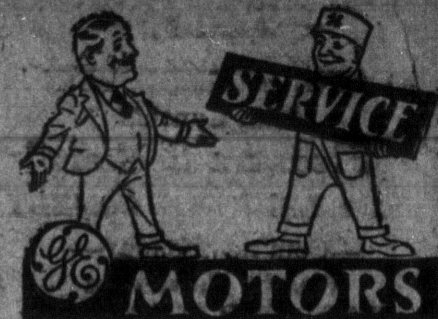

All these Governments are anxious to buy and prefer to do business with America and Great Britain. German firms, however, are busy; in consequence of the exchange their prices are lower, but they are handicapped by lack of raw material.

## Burned Priceless Documents.

A new broom sweeps clean, and there is nothing a young wife sets about more energetically than cleaning up the relics of her loved one's bachelor days. This has led to the untimely destruction of a number of valuable records at Buckten, Switzerland, where a newly married woman unacquainted with the nature of the documents, which she took for worthless old paper, set fire to the minutes of Swiss railway building in the early days of the steam engine, mostly dating from 1850. Apart from their historical interest, most of the papers were stamped with the rare "Dove of Basle," much sought after by stamp collectors, and worth \$50 apiece for good specimens. Close upon \$5,000 worth of them were made away with while the minutes themselves are estimated to have been worth fully as much, if not more.

## Do You Realize What G-E Service Means?

"Service" is one of the reasons why we sell G-E motors. We know there are G-E service shops centrally located where overhauling is done promptly and efficiently; we know that parts of G-E motors are standardized and interchangeable; we know that warehouses at strategic points stock these parts. We know, therefore, that we can offer the buyer of a G-E motor real assistance in keeping that motor at maximum efficiency.

That is why we sell G-E motors— isn't it a good reason why you should buy them?

## UNUSUAL CONDITION

Texas Lady Suffered With Pulling and Aching Pains in Her Back, Which Cardui Relieved.

Houston, Texas.—Mrs. C. D. Cook, of 1912 Whitty Street, this city, recently said: "About four months after my marriage, I began suffering much pain, and knew that my condition was unusual, but couldn't just decide what was wrong. I had to go to bed...."

"All across my back and hips were pains, pulling and aching until I could hardly sit up. I stayed in bed a few days. My husband had heard of Cardui...so I told him he might get it. "After I had taken Cardui a few days, I was up. I took five bottles and haven't been in bed since for this trouble, for if I have the least symptoms of this trouble I get Cardui and take it in time."

"I have a number of friends who have used Cardui, and they recommend it very highly."

The experience of this Texas lady is similar to that related by thousands of other women.

Cardui is purely vegetable, and mild and gentle in its action. Cardui may be the very medicine you need if suffering with womanly troubles.

Take Cardui.

## Grosses Enterprise.

In their pursuit of trade, undertakers, florists and makers of mourning goods assiduously read the death notices in the newspapers, and the house of death is overwhelmed with letters from them. But can you imagine the avocuous second-hand clothing dealer devoting himself to the same purpose? asks a New York correspondent. Recently widows and members of families, upon returning from a funeral have been amazed and shocked to find the following printed letter addressed to the deceased: "Dear Madam—Beg to inform you that I pay the highest prices for gentlemen's discarded clothing of every description, also shoes, etc. Owing to the scarcity and advanced prices of clothing this year, I am compelled to pay 50 per cent more than others for slightly used business suits, tuxedos, full dress, overcoats, trousers, fur coats and shoes. Before selling kindly send for me. Small or large orders promptly attended to. Write or phone and I will call at your convenience. Very respectfully, Mr. Blank."

## It Is Plaited Skirts Again

THERE was never a more cheerful outlook for separate skirts than the season just ahead of them. They have more than met all our expectations as to what the spring would bring after their triumph of last summer, and the models for southern tourists foretell another season of delightfully cool and dainty skirts for summer wear. In the meantime there are models for sports and street wear between seasons that meet every requirement that the most exacting taste can make. They are made of wool materials in stripes and crossbars, and apparently the patterns have been woven with reference to the dominant feature of the styles, which is plaits. It is plaited skirts again with all the emphasis possible on "plaited."

Most materials show a plain stripe alternated with a fancy stripe, and they are made up usually in box plaits with the plain stripe inverted. There are box plaits of all widths from an inch to six inches across and the striped and barred materials offer unending opportunities for ingenuity in managing plaits. In the skirt pictured the material is woven in very wide stripes of two colors, and both box and side plaits have been used. The pockets and belt are well man-

aged and finished with very large, handsome buttons.

Any one who is ambitious to prepare for summer in advance of its coming may make up skirts of baronet satin, wash satin, tricolette, crepe de chine or other suitable weaves in white or white and a color. Not all of these are plaited. A plain skirt of white wash satin has four gores in yellow satin set in, one at the front and back and one at each side. They are joined at the top, about seven inches wide at the bottom and terminate at the hip line with an embroidered arrow head. Widths of crepe de chine in white and a color are sewed together—four of each—alternating the color for skirts that are side plaited or widths of plain and fancy weaves in silks are managed in the same way. Among the newest and prettiest ideas appear little coats with hats to match, made of gay cretonne to be worn with wool skirts in quiet colors. Ribbon in the prevailing color in the skirt, borders the coat and trims the hat.

## Stevenson Planned Much Work.

Considering Robert Louis Stevenson's short life, he wrote a great deal, but he planned still more. A writer who has been delving into his record offers what he says is a hitherto unpublished list of "two novels and tales," which Stevenson meant to write, but never did. It runs thus: The Indian Mutiny, Saranac Lake, 1888; The Rising Sun, at Sea (Pacific), 1890; Dyce of Ythan (Samoa), 1892; The Shovel of Netwon French Samoa, 1892; The Beach-Combers, Samoa, 1893; Sophia Scarlet, Samoa, 1893; The Owl, Samoa, 1893; Death in the Pot, Samoa, 1893; The Sleeper Awakened, Samoa, 1893.

Stevenson planned other work not in the line of fiction. They were: A Biography of the Duke of Wellington, a Biography of Hazlitt, a history of the Indian Mutiny, an English Grammar, to be illustrated from the English Classics. He also began and, for one reason or another, never completed these stories:

The Great North Road, Bourne mouth, 1894; The Young Chevalier 1893; Heathercat, Samoa, 1893; The Go-Between, Samoa, 1893; St. Ives, Samoa, 1894; Weir of Hermalton, Samoa, 1894.

## Cocoonut Rafts.

Cocoonut palms grow luxuriantly in many parts of the Philippine Islands and there is a large demand for the nuts among the people who live in the cities and towns. The method of bringing them to the market at Manila is both simple and picturesque. The cocoons are brought to the banks of the River Pasig, a rough framework of bamboo poles is constructed, and on this the nuts are piled so as to form a raft. Three or four men then pole the curious craft down stream into the city of Manila.—Philadelphia Record.

## MRS. D. D. SRYGLEY

## ENTERTAINS CLASS

Assisted by Mrs. Edgar Green and Mrs. J. E. Blair, Mrs. D. D. Srygley entertained for her Sunday school class last night at her home in West Decatur. An enjoyable evening was spent, with a salad course served by the aid of members of the class. Dr. J. F. Sturdivent, pastor of the Central Methodist church, delivered a short informal address of encouragement to the Sunday school workers. Two delightful readings were given by Miss Vivian Burton.

In the heart contest, Miss Katherine Pritchett, won first honors. In the guessing of the individual from the sight only of their eyes, Dan Carson won first prize, while Dr. Sturdivent captured the consolation prize.

Those present were: Misses Lillian Baykdale, Vivian Burton, Lila and Katherine Pritchett, Rose Roody, Corine Long, Ethel Rhinehart, Judith Thigpen, Lola Nichols, Josephine Sterding.

Invited guests, not members of the class were: Messrs. Edgar Nichols, Dan Carson, Carl Kelley and Feler Robinson, Dr. and Mrs. J. S. Sturdivent, Mr. and Mrs. Allan Rhinehart, Mrs. T. E. Greene, Mr. and Mrs. J. E. Blair, Mr. and Mrs. D. D. Srygley and Raymond Srygley.

There will be a lecture accompanied by Stereopticon views on Art in the home at the Westminster Presbyterian church Tuesday evening at 8 o'clock under the auspices of the Progressive Culture Club.

Mrs. George Allen and sister, Mrs. Louise Rumble, of Spartanburg, S. C., who has been with her since Wednesday, left today for a visit to relatives in Cullman and Birmingham.

## SURPRISE PARTY FOR RICHARD NELSON

Last evening Richard Nelson was delightfully surprised when a few of his friends gathered at his home on Prospect Drive. Games and music were enjoyed until a late hour, when light refreshments were served. Those present were: Misses Mary Newton, Kate Frazier, Willie Mae Jacobs, Bertha Hazzard, Margaret Thompson, Mary Sewell, Fannie Mae McKoin, Bernice McClure, Mary Gargus, Thelma Chenault, Tommie Allen Newton, Daphne Nelson, Messrs. Earl Vaughn, Lonnie Petty, Harvey Bradshaw, Benton Hatchette, Thurman McKoin, Earl Petty, Benton Brindley of Hartselle, and Richard Nelson.

## SOUTH CAROLINA VISITOR COMPLIMENTED

Mrs. Louise Rumble was the inspiration for a dinner party Friday evening when Mrs. C. L. Maulsby entertained. At a daintily appointed table covers were laid for nine. Mrs. Maulsby served a most tempting five course dinner.

## MOVIE PARTY

Mr. and Mrs. W. R. Smith were hosts to a picture party last evening to honor Bryan McAfee. The crowd was composed of Misses Ethel Thompson, Mabel Eubanks, Ethel Ott, Messrs. Odo Smith, Bryan McAfee, and Mr. and Mrs. W. R. Smith. After interesting the show the guests were invited to the attractive Smith residence on Sherman street where tempting refreshments were served and the remaining evening hours spent in the enjoyment of a musical program.

CAUSES STEADIER FEELING  
THROUGHOUT THE MARKET

(International News Service)  
NEW YORK, Jan. 29.—Firmness in foreign exchange and the German reparation agreement caused a steadier feeling and initial prices were 13 to 17 points higher on the cotton market today. Wall street and the trade furnished the chief buying power at the start, while Liverpool sold. Later changes in prices were small and at the end of the first 15 minutes the market was about 14 points higher on active position.

Governor Kilby today announced the appointment of jury commissioners of three additional counties in Alabama. They are: J. E. Nelson, Jr., Mingo, Miss., R. F. Union miners who lost the unlawful-detainer cases by decision of the supreme court Thursday have fifteen days in which to make applications for rehearings and until that period has expired the action of the supreme court will not be certified to the trial courts. Officers of the supreme court had no information early Saturday as to whether or not applications for rehearings would be filed.

Montgomery has received reports during the past twenty-hours that the striking miners have reached an agreement with the coal companies whereby they will vacate the houses of the companies during April, thereby dismissing the unlawful detainer cases which were filed soon after the coal strike began last fall.

Business men of Montgomery have organized for a fight before the public service commission against the petition of the Atlantic Coast Line for permission to discontinue the Rowden special trains which have been important trade trains for the Montgomery business firms. The railroad contends that it has been losing money since the depression came and there must be curtailment somewhere. It insists it is better to discontinue local trains than through-passenger trains. The cases has been set for hearing next Monday.

One cat head received a favorable report but one dog head didn't fare so well in examinations by the state laboratory today. The dog was found to be affected with hydrophobia and citizens of Prattville and surrounding country who may have been bitten by it have been ordered to the state pasteur institute for treatment. The cat head came from Adamsville.

BROTHERS FIND PARENTS  
AFTER LONG SEPARATION

(International News Service)  
HOLYOKE, Mass., Jan. 29.—Separated from their parents in the excitement and disorder attending the Chelsea fire, in 1908, two brothers, Edward and Eric Bailey, aged eighteen and twenty-two years, respectively, have located their mother in Jamaica. They have left the farm of A. L. Green, where they have been working and will rejoice her.

The boys were taken by the State following the fire and for several years have been placed on farms to work.

## Pawpaw's Many Uses.

The principal use of the pawpaw, says a writer in the Journal of Heredity, is to eat from the hand, but there are other uses that it can be put to. It makes splendid custard pie. There is no finer dessert than pawpaw eaten with cream and sugar. It is used to make beer the same as the persimmon by putting the fruit in a jar, mashing it and putting water on it and letting it stand until fermented. It also answers to make pudding just the same as persimmon pudding is made. It is also said that brandy equal to peach brandy is made of pawpaws. Marmalade which is equal to that of peaches may be made of pawpaw. The custard may be spread on a board and dried like pumpkin leather.

## Pleasure in Well-Doing.

Pleasure has a way of coming indirectly—where least you look for her and when least you expect her. She lurks in the happiness of work well done. She lingers in the consciousness of honest bookkeeping with life, and she always is to be found in the joy of growth and progress. In all these ways honest pleasure is to be found. This isn't meant to be a dull preaching against anything but work. But it does mean to say that happiness lies in doing and the consciousness of good

Romance of Blind  
Lovers Ends With  
Church Wedding

(International News Service)  
OAKLAND, Cal., Jan. 29.—A love affair which began when both were totally blind and when Samuel W. Bean was unable to communicate with other human beings culminated in his marriage here to Miss Maude Woodworth. They met as students at the California State Home for the Deaf and Blind. Both are twenty-four years of age.

Bean now lives in Alameda at 1807 Santa Clara avenue, although for the past seven years he was a student at the blind school. Miss Woodworth, with the aid of strong glasses, now has her full sight.

Bean came to the school when he was sixteen years of age after an accident which destroyed both his sight and his hearing. It was months before Miss Mary Eastman, the young man's teacher, could establish any communication with him. Now he is trained in the use of the deaf sign language and is able to converse with anyone.

After the wedding ceremony, performed with the aid of the sign language, the young couple had luncheon with Mrs. Bean, the bridegroom's mother, and Eastman.

## "RADIANT" STOCKINGS

(International News Service)  
LONDON, Jan. 29.—"Radiant" stockings, announced from Paris, have not yet startled promenaders in London, though footwear fashions of the moment in England could by no means be called conservative in conception and design.

One of the mildest designs is the spider and fly design, the web, in delicate silk tracery, is designed to come just above the strap of an ankle-band shoe. Birds, wreaths of flowers and fruit, animals and swastika signs, which appearing on milady's veil used to have the effect of decorating the tip of her nose, have been transferred to the gossamer stockings.

A slim golden or silver anklet, worked in the silk of the stockings is one idea which gives an Eastern effect to an otherwise Western toilet.

Tiny sprigs of old fashioned flowers worked in the correct colors on the front of a pair of stockings were seen in wear in Bond street.

## Railroad Briefs About Town

One of the shopmen has sent in the following self explanatory "literature". Either from modesty or for self protection, he refuses to give his name:

1. My wife is my boss, I shall no deny.
2. She maketh me lie down behind the bed when swell company comes and she leadeth me up Main street behind her.
3. She restoreth my pocket book after she spent its contents on hobbys, skirts and theatre tickets, and she leadeth me up the main aisle at church for her hat's sake.
4. Yea though I walk more than half the night through dark room with a crying baby, I will get no rest for she is behind me. Her broom stick and hat pin they do everything else but comfort me.
5. She prepareth a cold lunch for me and then maketh a bee line to the aid society supper. She anointeth my head with the rolling pin. My arms runneth over with bundles before she is half through with shopping.
6. Surely her dressmakers and milliner bills shall follow me all the days of my life and I shall dwell in the house of my wife forever.

"I was interested in a recent editorial of the Daily on Sam Houston," said John K. Walsh. "Particularly that part of it which referred to the relations of Mr. Houston and his first wife, as I have some first hand information on the subject. Ten or twelve years ago I was in company with Williams Houston, the youngest child of General Houston. He was a traveling salesman at the time and a man of fine appearance. He was well into the fifties at the time he was talking to me. He said that when his father married the first Mrs. Houston, it was his understanding that it was a 'love match', but that soon he was told by his bride that she married him, because of the influence of his father and that she did not love him. Houston was high strung, and believed implicitly that married couple should love each other and when he found that these conditions were not met, he left for parts unknown. Later Williams Houston says, as did the Daily, his father wrote back that Mrs. Houston was 'blameless.' continued Mr. Walsh. Williams Houston was one of General Houston's children to Henry II.

his third wife."

The Safety First Bulletin for Jan. 2, contains figures of encouragement for the safety movement at the local shops. The percentage of accidents as given there on shows the local shops at 10 and a fraction, while the nearest competitor is about twice that as much, or 20%. This calculation is based on the number of hours worked and the number of men employed.

Webb G. Campbell, of the Machine shop, who had had a severe attack of the Flu, is slowly recovering.

C. O. Flippin, of the blacksmith department, has recently suffered an attack of rheumatism.

Forrest McCluskey, of the Carmen,

has been sick for several days.

James A. Foreman, of the Patrolmen, is confined at his home in West Albany with an attack of rheumatism.

Sam E. Roper, System Federation Craft Chairman, and a sheet metal worker, has returned to Chicago, where he is in attendance upon the meetings of the wage board. Mr. Roper was home, for the recent meeting of shop crafts at the Masonic Theatre, and expressed satisfaction with the progress being made by the representatives of the organization of Railway employees headed by B. M. Jewell. He reported an instance of the watchfulness of Mr. Jewell, who he says detected messages being passed by wage board members who were opposed to full and free discussion.

Foreman C. A. Hitch, of the Boiler shop, is again on duty after a slight illness.

C. C. Crafton, Boiler maker inspector, after an extended illness, is back at work.

Ed. English, of the Wheel House, after a long illness, which was reported as dangerous, has recently returned to work.

J. R. Gray, of the Machine shop, is sick.

Elmer E. Gray, Machinist, has been sick for the past few days.

In the time of Cortez the Yaquis numbered about 300,000.

WHEN HORACE SEES THIS LITTLE BOAT HE'LL WANT ONE JUST LIKE IT—I'LL BET HE CAN'T HAMMER A NAIL STRAIGHT EITHER.

HEY, TIMMIE! YOO! HOO!

WHEN THE PUPPY WAS A MONTH OLD BUDDIE USED TO HANDLE IT A GREAT DEAL.

A YEAR LATER IT WAS WITH THE GREATEST DIFFICULTY THAT BUDDIE GOT THE HIND LEGS OFF THE FLOOR.

WHEN I WAS A PUPPY I USED TO CARRY HIM SO HE DID LIKEWISE.

TWO YEARS LATER THE PUPPY REMEMBERED HOW BUDDIE USED TO CARRY HIM SO HE DID LIKEWISE.
